

Rights and Privacy Act

SSC will assume the right, under the provisions of the Family Educational Rights and Privacy Act, to provide student directory information without prior consent of the student.

Directory information is defined as a student's name, local address (if listed), date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of an athletic team member, dates of attendance, degrees and awards received, most recent previous educational agency or institution attended, listing of officers of student organizations (including names and addresses).

In the event a student wants more than directory information released, please notify the Office of Dean of Students ext. 211, 212, or stop by room 243, Holloway Hall.

Energy Hotline Open

Mark Wilkerson, Energy Coordinator for the college, would appreciate any thoughts or comments you may have concerning possible ways that we could save our energy and, consequently, our financial resources.

He also reminds you that the Energy Hotline is in full operation, and for problems or ideas relating to energy call extension 219 or drop by his office in the Maintenance Building on the south end of the campus.

Everyone is reminded that for the first seven to ten days of September, if the temperatures are above 85°, then we will most likely have to shut down various buildings in order to avoid a substantial "demand charge penalty" on our electric bill. A priority of buildings to be turned off has yet to be determined. You will be informed when the list is established. Classrooms will be air conditioned. "We will make every effort to keep you as comfortable as possible," he said.

During this year, Maryland residents can enroll in professional programs in Veterinary Medicine, Optometry, Osteopathic Medicine; a number of graduate including Coal Processing Research, Physical Therapy, and Radiation Chemistry; and a number of undergraduate programs—including Cytotechnology, Environmental Health, and Extracorporeal Circulation Technology.

## Advice on Applying for Credit Locally

All students are encouraged to inform local businesses and banks which department at the college they are working for when applying for credit, checking accounts, etc. That information enables college administrative offices to verify employment when businesses and banks call the college.

Many students have already been inconvenienced by businesses and banks unable to verify college employment. With roughly 450 students employed in various locations across the campus, the flow of information between the college and businesses is smoother if the caller knows a student's workplace.

That same information can help locate a student in the event of an emergency, so family members should also be aware of where a student works.

## Jean Kilbourne to Lecture

The controversial pressure of increasing alcohol sales through advertising is the subject of an interesting lecture in Holloway Hall on Tuesday, October 6 at 8 p.m.

Jean Kilbourne, free-lance writer, editor, lecturer and an early leader in the women's movement, will discuss "Under the Influence: The Pushing of Alcohol Via Advertising and Its Serious Effect on Society."

Dr. Kilbourne has developed a program for using media to teach writing, and has designed and led other media workshops for teachers nationally. For several years she was a consultant to the Boston Public Schools for a project involving film-making and young black women.

Presently assistant director of the New England Screen Education Association, she has been on the Board of Directors since 1972. From 1972 until 1975 she taught interdisciplinary studies, writing, and media studies at Emerson College.

In the late 1960s she became actively involved in the women's movement and began doing research on sex role stereotyping in the media. In 1970 she began collecting advertisements and created the first version of what was to become "The Naked Truth: Advertising's Image of Women," the slide presentation that she now presents nationally. She initiated and taught several seminars on women's studies at Emerson.

Alcoholism is another of Dr. Kilbourne's major concerns. She is particularly interested in the effect of alcohol abuse on women,

minorities, and young people, and its relationship to self-image and self-esteem.

She has written on all of these topics and has been interviewed by

many magazines and newspapers, including *Time*, *The Christian Science Monitor*, *The Village Voice* and the Associated Press. She has discussed the topics on radio and television programs throughout the country, including NBC's "Weekend" and "Today."

## Moves to Maintenance Building

The Administrative Services and Work Experience Office has moved to the Maintenance Building. The telephone extension remains the same—275 and 276.

## News Media In Spotlight

The probing eye of the media — how much should it see? In the interest of the community's need to know, how much privacy must be sacrificed? Confidentiality of sources—how much should it be protected when the public safety is threatened?

These are some of the difficult, ethical dilemmas news reporters and editors face everyday and it will be these questions that will serve as the focus of the second program in the "Ethics and the Profession" series funded by the Maryland Committee for the Humanities and jointly sponsored by Salisbury State College and the University of Maryland Eastern Shore.

Scheduled for Saturday, October third at nine a.m. in Caruthers Building 118 of the Salisbury State College, this program will bring together local media professionals, academic humanists, and the public to ponder and debate the moral quandries faced by a profession entrusted with the awesome responsibility of informing the citizenry of a democratic state.

The main address, delivered by Dr. John Donovan of George Washington University and entitled "The Public Eye: Ethics and the Media" will present some relevant ethical principles that apply to the media's responsibility both to inform and protect our privacy, to preserve confidentiality and to protect our welfare. Following his address, a panel of well known media representatives will discuss several cases dealing with the issues of privacy and the need to know. Glen Tolbert, writer and producer for the Maryland Center for Public Broadcasting will lead the discussion. Other panelists include Ned White, the general manager of the *Daily and Sunday Times*, Bill Jones of W.B.O.C. News, Mary Cordrey, Eastern Shore correspondent of the *Sun* papers and Sam Carey, general manager of W.S.B.Y.

The program is free and open to the public. Copies of the case study will be available at the door or call Francis Kane at Salisbury State College (546-3261, extension 462).

## First Musical Coming In Late October

Salisbury State College Theatre will present its first musical in several years next month when *The Boy Friend* will be staged October 23, 24 and 25 (matinee) and 28, 29, 30 and 31.

The show, directed by Paul Pfeiffer, assistant instructor of Communication Arts, will include parodies, musical comedies of the Twenties, featuring an art deco set, flapper costumes and — of course — the Charleston.

The plot of the musical centers around the romances of three couples at an English girls' school on the French Riviera, during the 1920's. The two romantic leads will be played by Thom Patt and Debbie Lombardo. Chris Harris and Dawn Lorelle Volkart provide the laughs, while Mabs Cullen and Bob Forester, as the older generation, rekindle an old flame.

*The Boy Friend's* cast is rounded out by such Salisbury State Theatre veterans as John Tucker, Sharon Bowersox, Kathy Pfeiffer, Joanne Linchuck, Lori Dykes, Ron Valente and Kevin Pobst, and newcomers Karin Pusey, Eileen Rubelmann, Sheree E. Jones, Debbie Zito, Cynthia Varga, Kris Nystrom and Brian Applestein. A few more male chorus and walk-on roles remain to be cast (interested performers contact the theatre office.)

Four choreographers are working on the production numbers, including dance instructor Diane McGhee, Beth Lauridsen, Debbie Lombardo, and director Pfeiffer himself. Music department virtuoso Ray Zeigler will serve as Musical Director and conductor of a fourteen piece on-stage orchestra.

The box office will open Monday, October 12, for a two-weekend run which will begin October 23. For further information contact SSC Theatre Office in Holloway Hall, ext. 497.

## Ethics in Media Discussed

"Ethics in the Media" was discussed at SSC last Saturday in a joint conference sponsored by SSC and the University of Maryland-Eastern Shore.

Handling arrangements for the conference were Francis Kane, chairman of the Philosophy Department at Salisbury State and Marion Keenan of the Social Science Department at UMES and executive director of Coastal Hospice.

Media representatives at the session—all from Salisbury—were: Glen Tolbert, writer and producer for the Maryland Center for Public Broadcasting and discussion chairman; Samuel Carey, general manager of WSBY radio in Salisbury; Bill Jones and Becky Gebhardt, representing Salisbury television stations WBOC and WMDT respectively; Mary Cordrey, Eastern Shore correspondent for the *Baltimore Sun*; and Edward C. White, general manager of *The Daily Times*.

Following a discussion on a general philosophy of morality in the media by keynote speaker Dr. John Donovan, assistant professor of philosophy at George Washington University, the panel discussed two fictitious news events and how they would handle delicate decisions on how to report the news.

The panel agreed unanimously that they would report the full details of a supposed shooting incident in which a white policeman has shot and killed a black youth in a racially tense neighborhood. While acknowledging criticism that television lights and microphones might influence the actions of a crowd at the scene, Jones said full coverage was the only course to take.

Panel members argued with several members of the audience who insisted that the media should not be allowed to question the personal lives of public officials—specifically in a hypothetical case in which an anti-pornography campaigner was rumored to have been arrested for homosexual solicitation.

White and others insisted that representatives of the media have the right—and obligation—to ask any and all questions they believe relevant to an investigation. All of the answers are not necessarily printed, he pointed out.

Panel members noted the urgency of daily deadlines that sometimes lead to errors. Follow-up stories are important to provide details unavailable when the stories are first aired or written, panel members agreed.

## Great Fall Pie Festival

The Great Fall Pie Festival of sports, games, and contests will be held on campus by the Department of Intramurals and Recreation.

The festival will be held on October 31 and November 1 and will include such games and participation activities as an archery tournament, pie-eating contest, tobacco-spitting contest, master's swim meet, five-kilometer race, table tennis tournament, and flag football games.

The festival is generally designed for SSC students, faculty and staff. However, the public is encouraged to join in the fun. It is the goal of the Department of Intramurals and Recreation to create an atmosphere of friendliness and camaraderie between the college community and the general public. The department also wants the public to see firsthand what intramurals and recreation mean.

New Games are basically contests and play systems which for the most part are non-competitive. They may involve two participants or as many as two-hundred, all interacting with one another in a physically refreshing manner. And even the more competitive of the games activities such as "Hunker Hawser," "Toodle Dooping," and "Boffing," as their names might suggest, keep everyone laughing long after the day is done.

Another objective of the festival is to provide an incentive for resident students to leave the suitcase under the bed and stick around right through 'til Monday.

The Great Fall Pie Festival is pleased to have as co-sponsors The Coca-Cola Bottling Company of Salisbury and English Family Restaurants.

It is also our pleasure to recognize the invaluable assistance in planning and supervising of the following campus groups: Outdoors Club, SSPB, Black Student Union, Leisure Association, The Department of Public Safety, and the SGA.

## College Orientation Seminar

Spring 1982 will be the pilot test for a 1-credit orientation course. Planned and reviewed since September 1981, this offering is implemented for the purpose of introducing new students to classroom and campus life, academic and career planning, campus facilities and services, and personal adjustment issues and pressures. Increased chances for student retention and success in college is just one of the benefits expected from this requirement. Each section of the course will be coordinated by volunteer faculty assisted by student staff assistants.

The faculty member's role is to: 1) introduce the speakers for each class meeting, 2) act as a liaison between new students and the course coordinator, 3) act as a source of information within the faculty member's own area of expertise, and 4) evaluate student performance on a S/F basis ("S." denotes a passing grade in a course bearing internal credit only).

For Spring 1982, five sections of the seminar will be delivered twice a week for eight weeks.

Tentative times are: M/W at 9 a.m. and 2 p.m.; T/Tr at 10 a.m. and at 2 p.m.; and T evening from 7-9 p.m.

The substance of each class meeting will be presented primarily by college counselors and administrators. Therefore, the primary instructional preparation and responsibility does not fall to volunteer faculty.

Faculty interested in volunteering as a section facilitator should indicate their interest by calling the Academic Vice President's Office, ext. 202. Once an adequate number of volunteers is obtained, a meeting will be set to describe the seminar in detail and to plan a time for a brief orientation to the course syllabus.

## Talk on Russia

For more information on this and other courses offered through the Office of Continuing Education, contact ext.306.

If you are interested in Nursing or **think** you may be, stop by for a few minutes.

## Dick Gregory Here Nov. 4

Nationally-known personality Dick Gregory will appear in Holloway Hall Auditorium on November 4, at 8 p.m., it was announced recently by the Black Student Union, sponsors.

It is difficult to label the prolific activities of Dick Gregory. He became famous as a professional comedian. Today he is a recording artist, author, lecturer, actor, human rights activist, social satirist, critic, philosopher and political analyst, who combines all of these roles to serve the cause of human liberation and to alleviate human suffering brought on by ignorance and apathy.

Dick Gregory was born in the Black ghetto of St. Louis, Mo. While in high school, he became a state champion in track and field, and later expanded his honors on the track at Southern Illinois University in Carbondale, Ill. He entered the entertainment field and quickly rose to the top, once more becoming "champion" in American society. Dick Gregory has ardently pursued his definition of "championship" by doing the things he does best: making people laugh, making people listen and, ultimately, helping them understand one another.

Dick Gregory chose a career in comedy at a time when Black comedians received bookings only in Black clubs and theatres. In 1961, he was called as a last-minute replacement at Chicago's Playboy Club. He was an immediate sensation. He soon appeared in all the top clubs in the country and on major network television shows and consequently became the man who opened the formerly tightly-closed doors of the White-dominated entertainment industry to all Black comedians who followed his breakthrough.

Having opened the doors of the entertainment industry, he began

knocking on other doors. He used his fame as an entertainer, and whatever fortune that fame would bring him, to open the closed doors in the American system which barred the entry of any man or woman to the guarantee of full freedom.

During the civil rights movement of the 1960's, Dick Gregory participated in every major (and most minor) demonstration for human rights in America. He devoted his time and talent to giving benefits for civil rights groups, peace groups, and other clusters of people devoted to human liberation.

His participation in the struggle for human dignity cost him over a million dollars in cancelled bookings, travel expenses and legal fees. He found himself behind prison bars many times, twice serving 45-day sentences—once in Chicago as a result of his daily demonstrations protesting de facto segregation in the Chicago public system during the entire summer of 1965, and again in the state of Washington as a result of his demonstrating with the Niquality Indians in their demand for full participation in American society. Dick Gregory fasted during both periods of confinement, taking only distilled water for nourishment. In 1974, Gregory ran 800 miles, from Chicago to Washington, D.C., to call attention to the problem of hunger in the world today.

Today, Dick Gregory has become one of the most sought-after speakers in America on college campuses. He visits more than 200 colleges each school year, and his popularity among business groups is rapidly growing as well. He strongly opposes nuclear power, and has said that he may run against Sen. Ted Kennedy in the next election for the Senate seat from Massachusetts.

### Med. Tech Program Given Accrediation

SSC's Medical Technology Program has been awarded continuing accreditation by the Committee on Allied Health Education and Accreditation of the American Medical Association, it was announced this week. The review process involves external evaluators who examine all phases of the educational program from the content of the courses and qualifications of the instructional staff to the type of instrumentation and kinds of tests performed in the hospital laboratory.

This accreditation allows students, who complete the four-year program with a baccalaureate degree, to sit for the registry examination offered by the American Society of Clinical Pathologists. Successful candidates are then licensed nationally to practice the profession of Medical Technology in the hospital setting. The accreditation for the Medical Technology program offers a unique employment opportunity of students with a serious interest in the health professions.

### Theatre Changes Program in Dec.

As a result of casting difficulties, the scheduled production of *Under Milkwood* by the SSC Theatre has been changed to *Kennedys' Children*.

*Kennedys' Children* is Robert Patrick's six-continent smash hit and winner of the Glasgow Citizens' Theatre World Playwriting Award. The play will be presented December 4, 5, and 6 and again December 10, 11 and 12. Tickets will go on sale November 30 at the Salisbury State Theatre booth.

This production reflects upon the 1960's, a decade which started with such hopes and ended in despair. The setting for the play is a bar on New York's Lower Eastside on a rainy Saint Valentines Day in 1974. The five characters are products of the '60s who have drifted into the saloon to drink and reminisce.

The array of characters includes Sue Struv as Wanda, a secretary turned schoolteacher who idealized John F. Kennedy; Mathew Ball as Sparger, the flamboyant off-off Broadway actor; Lynn May as Rona, who was an activist in the youth-political movements of the 1960's. The other characters include Jeff Perry as Mark, a drug-addicted Viet Nam vet and Irene Little as Carla, an inspiring actress who wanted to be the next Marilyn Monroe. The bartender will be portrayed by Ed Hooker.

Simultaneously with this production, Salisbury State Theatre will also be presenting *The Wizard of Oz*. Casting has been completed with Becky Weber cast as Dorothy. The remainder of the cast includes Mary Beth Auch, Ed Hooker, Wendy Messick, Charlotte Smullen, Lisa Ianuzzi, Nora Lynch, Ken Johnson, Ilyana Kadushin, Joyce Greco, Christine Kelly and Charita Brown.

## SSC Band to Perform Nutcracker Suite

The Music Department will present two of its performing organizations in concert in Holloway Hall auditorium on December 6 at 4:00 p.m. The Concert Band will perform the complete "Nutcracker Suite" by Peter Tschaikovsky. The College Chorus will sing a combination of traditional carols and more recent selections.

Tschaikovsky's "Nutcracker Suite" was adapted from the ballet of the same title which was composed in 1892. It was based on a story by E.T.A. Hoffman, "The Nutcracker and the King of the Mice." Tschaikovsky's strong imagination and flair for beautiful melodies was a perfect combination for the fanciful, fairylike atmosphere created in the Arabian, Russian, and Chinese Dances as well as the more familiar "Dance of the Sugar Plum Fairy" and "Dance of the Reed-Pipes." The work concludes with the beautiful "Waltz of the Flowers." Mr. Charles F. Smith, Jr., director especially invites all music lovers to what is believed to be the first complete presentation of the Suite by a band in this area.

Dr. Ray H. Zeigler, director of the college chorus will ask the audience to join in singing special arrangements of "O Come, All Ye Faithful" and "The First Nowell." The chorus will additionally present the familiar "Twelve Days of Christmas" and "Deck the Halls." J.S. Bach's "Break Forth, O Beauteous Heavenly Light" and Hector Berlioz' "The Shepherd's Farewell" add a special touch of choral history to the evening's program. "The Nativity Carol" and "The Prophecy" are contemporary compositions to be offered by the chorus.

The evening will conclude with a sing-a-long by the band, chorus, and audience of selected sacred and secular carols. Admission is free.

Tickets for SSC Theatre's production of *Kennedy's Children* are on sale. The Robert Patrick production will be presented December 4,5,6 and 11, 12, 13 in Caruthers Hall auditorium.

*Kennedy's Children* is an emotionally charged play about five characters who experienced life during the 1960s. The play consists of a series of dramatic monologues about America during the decade of the 'sixties. Each character is meant to represent a different aspect of the decade.

The setting for the play is a bar in New York City on a rainy St. Valentine's Day in 1974. The characters reflect upon the hopes, dreams and experiences during the 'sixties.

The play is a strong, fascinating stage experience strictly for adults. Performances begin at 8:30 p.m. each day and at 2:30 p.m. on Sunday, December 6. For reservations, phone ext. 498.

## New Programs Start; Another Reaccredited

### SSC Will Offer Respiratory Program

SSC is about to become the first public higher education institution in the state to offer a four-year baccalaureate program in respiratory therapy. Approval for this has been granted by the State Board for Higher Education according to a college spokesman.

The program, is a cooperative effort with Peninsula General Hospital Medical Center. The respiratory therapy student takes two years of preparatory work, involving general education requirements at SSC. The final two years are centered at the hospital with emphasis on critical care concepts in the third year and specializations in the hospital setting room as part of the medical care team in the final year.

Respiratory therapy is a highly skilled profession, emphasizing the monitoring and maintenance of the cardio-pulmonary functions. A joint

review committee on respiratory therapy education specifies program requirements for certification. The Salisbury State program has been designed to meet these requirements.

Once students have completed the program, they are eligible to take a registry examination offered by the National Board of Respiratory Therapists. Passing of the examination leads to certification that the student is a registered respiratory therapist. Then he is eligible for employment as a therapist in every accredited hospital in the country.

Dr. Rodney Layton, chief of pulmonary care at the hospital, and Dr. Cal Nagel, supervisor of the hospital unit, will share the responsibility of medical direction of the program. Layton and Nagel have been appointed adjunct clinical professors at SSC and will participate in the instruction of students. Charles Boyer, supervisor of the pul-

monary function unit at the hospital, has been designated clinical affiliate and will take an active part in directing the specialty care experiences for respiratory therapy students.

Formal approval of the program will be sought through a joint review committee on respiratory therapy education. The evaluation process requires thorough documentation of program resources of the college and the hospital. It will include a visit by officials representing the accrediting agency. That evaluation process is underway and will continue for the next nine months, according to Dr. Peter Kernaghan, respiratory therapy director at the college.

The respiratory therapy program will also provide career opportunities for respiratory therapy technicians who desire to advance to respiratory therapist status at the baccalaureate level.

### Medical Technology

SSC's Medical Technology program was given an unofficial boost recently when all eleven SSC graduates passed the registry examination given by the American Society of Clinical Pathologists.

Dr. Peter Kernaghan, program director for Medical Technology, called attention to the unusual success of the grads. "I believe this is unusual and noteworthy when every exam participant passes at one time. I think it is reflective of adequate preparation and of the quality of SSC's program," he said.

Salisbury State's four-year baccalaureate degree program includes three years of preparatory study at SSC. The fourth year is at PGH Medical Center, where the participant is trained in the actual laboratory setting before receiving the bachelor degree. The graduate is then ready for the national certification examination.

The graduates who passed the exam were: Kathy Coyle, Belair, Md.; Anne Kelly, Belair, Md.; Nancy Lloyd, Salisbury; Joann Messick, Seaford, Del.; William Miller, Springfield, Va.; Mary Ohler, Salisbury; Lori Anderson, Russell, Ellicott City, Md.; Belinda Sinclair, Salisbury; Claudia Verrelli, Wheaton, Md.; Maureen Williams, Salisbury; and Michelle Yeatman, Ridge, Md.

Salisbury State College's Medical Technology program was recently re-accredited by the National Accrediting Agency for Clinical Laboratory Sciences. The re-accreditation, which occurs every five years, guarantees every graduate an opportunity to take the registry exam offered by the American Society of Clinical Pathologists. Passing this exam results in permanent certification in medical technology work and entitles the qualifier to practice the profession of medical technology at hospitals and laboratories throughout the country.

### Volunteers Needed

Volunteers are needed for planned parenthood clinic, in the Health Center on campus. Hours are 12-8 every Thursday, 10-3 on alternate Fridays. Applications must be turned in by February 4 or 5. Training period is February 10, 22, and 13.

### Art Major Comes to SSC

The State Board for Higher Education has approved the introduction of an art major into SSC's academic program. Action took place at a recent State Board meeting. The approved program of studio courses will lead to a bachelor of arts degree in art.

Presently the Art Department offers thirty-eight courses and over one hundred majors with six full-time and six part-time faculty. Most of the course offerings are in the areas of 2-D and 3-D design, drawing, sculpture, painting, print-making, photography, ceramics, visual communications and art history.

The Art Department provides a balanced background for those students seeking careers as practicing artists and art historians. It provides the foundation for advanced art studies on both the undergraduate and graduate level, intended to develop competent artists. For the general student, as well as the art student, this department seeks to develop perceptual insights, including a sensitivity to the values expressed through the visual arts by a wide

variety of cultures.

James Burgess, Art Department chairman says that "For the past several years the approved program was operating as a program of study in the Liberal Studies Department, without the use of the word 'major.' Steadily the curriculum grew as enrollment increased," he declared. "Graduates of the program have found employment in many different art areas in several states and also graduate schools. At the present time over eighty percent of the students are employed. The major will now permit the Art Department to expand into other career oriented areas of concentration, one of which will be the visual communication (advertising). We will continue to offer courses at various times in the evening for the community," said Burgess.

"The department is pleased with the responses from various organizations about the new gallery program, offering tours of the various exhibits scheduled during the academic year. For further information contact the department, ext. 215," he added.

McGlinchey, 36, who has coached football at SSC since the inception of the sport here in 1972, is the third Sea Gull head coach, succeeding G. William Yeagle, who resigned in November.

President Bellavance said, "We were extremely fortunate that Mike was interested in the position and willing to step in as head coach. He's a known quantity here on campus and that means a record of dedication, unwavering spirit, commitment to educating the whole person and an unquestionable ability in the area of teaching."

# Foundation Aids Many Faculty, Students

"It was money needed badly and I didn't know where it was coming from," said David Block, Geography Department.

"I'm able to put on some art shows which would not have been possible without this money," noted Marie Tator, Art Department.

"It's a very convenient way to funnel needed funds into research. These needs can't be supported by state money," declared Fred Kundell of the Chemistry Department.

All these and many more Salisbury State College faculty are pleased and appreciative of grants given by the SSC Foundation for worthwhile projects and needs.

It all started some three years ago when the Foundation received its tax-exempt status and formally went into operation with a modest financial base. The base is still modest but the group of officers and directors from the lower shore area is able to spread the benefits around to satisfy a large number of faculty.

Dave Rodgers, current chairman of the Foundation, says that the aim of the organization is to enrich and embellish Salisbury State's academic program.

"Through these grants, we are able to keep pace with a trend in higher education today--attaining greater quality in programs," Rodgers said.

He continued: "So far, with our Foundation funds, we have been able to offer scholarships, awards and recognition for students, and encourage faculty development.

"I sincerely urge anyone who has a desire to add to our financial base, no matter what the amount might be, in order to help us provide more and more quality in our program, to send a check to the Salisbury State College Foundation."

In a recent talk to a local group, President Bellavance was excited about the accomplishments of the Foundation. "At this time when State support to higher education is dropping annually, it is refreshing and vital that we count on this financial assistance from the Foundation to help us institute more quality into our programs."

## Kennedy Center Trip

For the spring semester the sole English Department/College Center theater trip will be on Tuesday, February 23rd to the Kennedy Center to see Sidney Howard's *The Late Christopher Bean*. Featuring Jean Stapleton in the role of Abby, the down-to-earth maid, Howard's 1932 comedy entertains while it examines the effects of greed on a middle class New England family who never seem to have as much as they want. Howard shows what happens when the Haggetts discover the monetary value of canvases they supposed worthless when the painter Chris Bean, an impoverished patient of Dr. Haggett's, left them behind some ten years before.

Tickets at \$8.00 each for SSC students go on sale at the ticket desk of the College Center on February 3. Tickets at \$10.00 each for faculty, staff, alumni, and eligible guests may be purchased beginning on February 8. Ticket price includes bus transportation to and from D.C. The bus will depart from Maggs Gym at 2:30 on February 23. For further information, contact Bill Horne (ext. 482), or call the College Center ticket desk (ext. 395).

Faculty members who have been helped through Foundation grants include:

David Block, Geography, several grants for aerial remote sensing topographical studies.

Fred Kundell, Chemistry, has had funds donated to the Foundation for solar related projects and for production of a kinetic cell to study chemical reactions in the

The SSC Foundation Gala, held annually to support quality objectives of the College which are not funded by the State, will be held Saturday, April 3, in Ruth Powell Dining Hall.

The Gala is a first-class social event which attracts, in addition to College staff, many prominent persons in Wicomico, Somerset, Worcester, Dorchester and Talbot counties.

## Pre-registration Program for Graduate Students Successful

Some 325 graduate students pre-registered for Salisbury State's Spring '82 graduate courses under the advance registration program, it was announced today.

The Registrar's Office, in cooperation with the Office of Continuing Education, handled the pre-registration. The program was highly successful and represented about 55 percent of expected total graduate student enrollment for the spring semester.

The course selections are not irrevocable. Students who change their mind and find that they are unable to attend can simply notify the Registrar's Office, with no penalties attached. This new procedure enables the college to review and evaluate all graduate courses after the initial pre-registration.

In the event the college finds the need to add more sections of certain courses, such sections can then be added. One extension course was added, an advantage of a pre-registration system.

Late registration continues for both undergraduate and graduate courses from February 1-8. For more information, contact the Registrar's Office at 546-3261, ext. 398.

## Skydiving Added to Intramural Activities

Sport parachuting or "skydiving" has been steadily growing since its beginning in the early 1950's and currently involves nearly 20,000 participants world-wide with numerous major competitions and meets being held annually both in the U.S. and abroad.

Gordon Riner, proprietor of Parachutes Are Fun, in Ridgely, Md., and an area safety officer for the United States Parachute Association, will be the guest speaker for the Monday night meeting. He will discuss the many facets of sport parachuting including such topics as equipment, training, competition, and safety. In addition to Mr. Riner's presentation, two films will be shown and refreshments will be available.

This meeting is open to the public and anyone interested in learning more about this fascinating sport is encouraged to attend. For more information, contact Sgt. Rick Maloof, SSC ROTC Office, 546-3261, or Dave Powers, 749-8412.

## Parren Mitchell Here on February 18

Parren J. Mitchell, representative in the Maryland State General Assembly from the 7th Congressional District, will speak at Salisbury State College's Holloway Hall on February 18.

Representative Mitchell served as chairman of the Congressional Black Caucus from 1978 to 1980. When his two-year term was up, because of his popularity, his supporters tried unsuccessfully to persuade the Caucus to suspend rules to re-elect him to a second term.

He has been elected by the House Democratic Caucus and appointed by Speaker Thomas P. O'Neal as one of the eleven "Whips," thus becoming the first Black ever included in the official House leadership structure. His leadership, according to one source, helps explain why his three Washington and Baltimore offices are swamped with 2,000 letters and 1,800 phone calls a week.

Dr. Oscar Chapman, advisor to the Black Student Union, is a personal friend of Representative Mitchell.

He notes that the Congressman's service to Baltimore City has been outstanding. "Perhaps half of the writers and callers have exhausted the usual casework channels of communications and have been turned down. The other 50 percent, however, are people whose problems ought to be handled by the Baltimore City Council or by various local and state offices. The nature of the letters and phone calls that Congressman Mitchell receives does not matter to him. And the word usually gets out that if you have a problem, P.M. (as he is commonly known by his constituents) can do something about it," Dr. Chapman declared.

"The unemployment situation in my district is grim; it is about 40 percent for our young Black males," laments Congressman Mitchell. He has stated that "there was a time when I used to really enjoy leaving Washington every evening, parking my car ten blocks from home and walking to mingle with my people. But now with the unemployment situation being what it is, I walk five blocks and 20 people are saying 'get me a job' which really hurts me, because I cannot find two jobs a week for them. And the economic conditions of the poor people in this country are indeed very bad and will probably get worse before getting better."

### Gives Talk

"World Peace Through World Government" was the topic of an address given by Dr. Harold Schaffer, director of the Office of Continuing Education, at the Sunday Morning Brunch at Beth Israel Temple on January 24.

### Dr. St. Martin Featured Speaker

Dr. Gerald St. Martin, assistant professor of modern languages, will be the featured speaker at the February 25 meeting of the Alliance Francaise in Easton Maryland.

Dr. St. Martin will present a lecture on the French author Albert Camus. The lecture will be entirely in French with a summary and highlights in English followed by a brief discussion of one of Camus' short stories.

## New MBA Program Starts in September

The State Board for Higher Education at its regular February meeting this week approved a new Master of Business Administration program and a new degree for Salisbury State College.

The MBA will be a ten-graduate course program and will begin in the fall of 1982, according to Dr. Jerome Lake, chairman of the business administration and economics department, and Dr. Patrick Butler, associate chairman for graduate studies.

Assignment of this degree to Salisbury State College was one of a number of different programs agreed upon in the recent Long-Range Collaborative Academic Planning between Salisbury State College and University of Maryland-Eastern Shore.

Dr. Lake said that the curriculum for the MBA program will be offered during the late afternoon-evening time period in order to meet the needs of both full-time and part-time students.

"It is being designed to develop analytical and professional abilities in

management," he said. "It will present a broad perspective of the management process, environment of management and the functional management areas of accounting, finance and marketing," he added.

Both full-time and part-time students will be admitted to the program. Full-time students will normally complete degree requirements in three semesters, while part-time students will complete work in five semesters.

Dr. Lake indicated that many persons have indicated interest in the MBA program when news that it was close to approval became known. He urged all others who are interested should contact to Dr. Patrick Butler, associate chairman for graduate studies, Business Administration and Economics Department.

A Masters degree in Nursing has been approved by the Board of Trustees of the State Universities and Colleges and must be approved by the State Board. Another program, a Bachelor of Arts degree in Political Science is also awaiting approval by the State Board for Higher Education.

## Evening Hours Student Life

The Dean of Students Office, including the Office of Residence Life and the Office of Student Organizations and Programs will continue evening hours for the 1982 spring semester. A schedule of hours will be made available in the next few days.

## A Basic Approach to Stress Management for the '80's

"A Basic Approach to Stress Management for the '80s," a special non-credit course offering at Salisbury State College, will be held six consecutive Tuesdays, February 23 through April 6.

The course, offered from 7-9 p.m. in Caruthers Hall, room 104, will be taught by Joseph Heher, who earned his DDS degree from the University of Maryland, Baltimore College of Dental Surgery, and Rosemary Heher.

The course will attempt to create a concrete awareness of the problems and suggest an alternative that participants may wish to pursue further on an individual basis.

It is basically a tripartite approach for those consumers who desire a more energetic, vibrant and positive approach to life through nutritional awareness, exercise and stress reduction techniques. Featured among topics to be covered will be an introduction to Selye's Stress Model of Disease, a consumer's approach to sound nutritional practices, a basic stress reduction diet, cardiovascular exercise program and an introduction to applied kinesiology to enable students to begin to focus into their bodies.

Joseph Heher recently commented on changing environmental and dietary factors and their resultant effect on society today.

"Man has evolved and survived

for centuries based upon a relatively fixed environment and diet," said Heher. "The past 50 years have found both our environment and nutrition changing almost geometrically in opposite directions. The end results of this 'experiment' have yet to be observed, but certain indications are already developing.

"Dr. Weston Price, in his world-wide study of primitives and aborigines, discovered that the first offspring of parents introduced to the 'white man's diet' experienced a malformation of generations of previously well formed dental arches and a concomitant difficulty in the birthing process," continued Heher.

"Today's society is one of artificialities: manmade pollution, artificial foods, flavorings, colorings, preservatives, pesticides and fertilizers along with a parallel increase in the utilization of synthetic drugs, many of which are mind-altering.

"In spite of medicine's great technological advances, one can justifiably argue that we are not healthier. Even more alarming is the fact that we are now beginning to evidence a second generation being raised on our 'experimental diet.'"

For further information concerning this as well as other non-credit continuing education courses, contact the Office of Continuing Education at ext. 321.

Ms. Audrey E. Claus has served as teacher, principal, curriculum specialist, and primary supervisor in the St. Louis Public Schools. From 1960-1970 she was instrumental in the development of a city-wide ungraded primary and assisted in the production of a wide variety of curricular and service materials for the implementation of the program. From 1967-1971 she structured and directed a teacher-certification program known as Career II, operating under the auspices of Harris Teachers College in St. Louis. The purpose of the program was to retrain women with degrees in fields other than education for the ungraded primary classrooms of the inner city.

Ms. Claus is the co-author with Dr. William Kottmeyer of the widely used *Basic Goals in Spelling* series, the *Basic Goals in Reading* series, and *Plus 10*, a vocabulary development program which, in the success of its pilot stages in St. Louis, received nationwide acclaim. She has adapted a series of fairy tales for children and has written workbooks for children in beginning reading readiness, reading, and languages.

Ms. Claus received her Bachelor of Arts degree from Harris Teachers College, a Master of Arts degree in English Literature from Washington University, and has done further graduate work at Washington and St. Louis Universities and at Syracuse University in New York.

The workshop is free of charge for SSC faculty and staff. The charge for undergraduate students is \$1.00 and public admission is \$4.

Specialties represented include: Surgical Intensive Care unit; Oncology; Head and Neck Surgery; Orthopedics; General Surgery; and Neuro Sciences. There will be plenty of time for questions and answers on a small group basis. Everyone is invited!

## Theatre Production... Member of the Wedding Opens March 15

Salisbury State Theatre will present Carson McCullers' classic American drama, *The Member of the Wedding*, in Caruthers Hall Auditorium, Friday, Saturday and Sunday, March 5-7, and Thursday through Saturday, March 11-13, at 8:30 p.m. (2:30 Sunday). The production marks the SSC directing debut of new theatre instructor William B. McCarthy.

The play is the stirring, intimate account of a small town southern girl's sudden coming of age one fateful weekend in August 1945. It is, in fact, the very weekend the first atom bomb was dropped on Hiroshima, but in Frankie Addams' backyard world the world-changing event barely rates a mention. Frankie, a gangly tomboy in the throes of early adolescence, who has "never believed in romance," falls heavily under its spell when her soldier brother brings home his bride for an old fashioned parlor wedding. The play explores her feelings and confusions as she encounters for the first time the actualities of love and marriage, loneliness, and even death.

The original New York production, in 1950, catapulted Julie Harris to stardom in the role of Frankie, while the late Ethel Waters, as Berenice, gave one of her most stunning performances. Also featured as Frankie's cousin John Henry, a constant presence in the Addams kitchen, was eight-year-old Brandon de Wilde in his Broadway debut. The play was later released as a feature film with the original actors in the major roles.

In the current production the role of Frankie will be played by talented Elizabeth Keenan, who unlike Julie Harris, is actually twelve years old. "It wasn't actually planned that way," says director McCarthy, who auditioned a number of college students for the role before settling on Liz. "We just got lucky." Liz is an eighth grade student at St. Francis del Sales school and lives in Princess Anne.

Wendy Messick, a sophomore theatre student, will play Berenice. A welcome new face on the SSC campus, Wendy has already appeared on our stage as the Wicked Witch in the fall production of *The Wizard of Oz*.

The box office in Caruthers Hall is open daily from 10 to 7, or call for reservations: ext. 498. Admission: \$3.50 adults; \$2.00 students/senior citizens; \$1.00 SSC students, faculty and staff. Don't miss this nostalgic slice of Americana.

## Tawes ID Cards Required

The College Center has announced plans for the implementation of a unique security system in the Tawes Hall Complex.

Beginning March 15, 1982, a valid SSC I.D. card will be required for all persons who desire entry and use of facilities in Tawes Hall from 4 p.m. to 12 midnight on weekdays and from 1 p.m. to 10 p.m. on week-ends.

Entry and exit into and out of the building will be restricted to the northeast doors at these times in an effort to maintain use of the facility to the campus community. Guests will be permitted on a one-to-one basis and will be required to register at the front desk; guests will be asked to leave one form of identification.

Persons already occupying the building at 4 p.m. on weekdays will be requested to turn in an I.D. card at this time or vacate the facility.

The I.D. system has been developed in an effort to curb unauthorized use of the building, to provide additional access to the main arena for SSC students during "free play" hours, and to provide increased security against theft. In addition to the I.D. system, alarms will be installed on all exterior doors.

Identification cards may be obtained from the Department of Public Safety in Holloway Hall. Call 546-3261, ext. 221 for times/day availability.

## Oral Surgery Program Planned

Dr. Bernard Dormer will give a slide-lecture presentation on "The Scope of Contemporary Oral and Maxillofacial Surgery" on Wednesday, March 17th, at 8 p.m. in DH 108. Dr. Dormer has a reputation for fascinating visual presentations and is back by popular demand.

This will be one of the regular Medical Careers Club meetings. All persons interested in medically oriented vocations are invited and encouraged to attend our meetings. See Dr. DiGiovanna, DH 237, for more career information.

## Kennedy Center Trip Planned

Strong interest in the College Center/English Department theater trip to the Kennedy Center earlier this semester, has prompted the sponsors to plan a second trip on Thursday, April 8th.

On the stage of the Eisenhower Theater will be the *Medea* of Euripides, a tragedy of a passionate woman whose love turns to murderous hatred when betrayed by her ambitious husband. Zoe Caldwell will star in the title role, and Judith Anderson will be featured as the Nurse.

Sign up for SSC students begins on March 15th at the College Center Information Desk; tickets for students will be \$8.00. Sign up for faculty, staff, and alumni begins on March 18th (ticket price \$11.00). The bus will depart from Maggs Gym at 2:30 p.m. on April 8th. ## Moll Print Given at Gala April 3

Well-known Eastern Shore artist John Moll has been commissioned to create a special print to be presented as a favor for all couples attending the Salisbury State College Foundation Gala on April 3.

The creation, a Chesapeake Bay Bugeye under sail, will match previous Foundation Gala favor prints as a triad. It is in full color and will be personally autographed by John Moll.

The Foundation Gala is the foundation's most publicized social event of the year. Members of the community are encouraged to attend this event to support the college. Proceeds go to aid quality elements of the campus programs not supported by state funds.

David Rodgers, vice president of First Shore Federal and chairman of the foundation, calls the support necessary in today's picture of declining state support of higher education.

Rodgers noted that the foundation was instituted three years ago as a community gesture for support of Salisbury State College. "We are

highly pleased that the community has taken a real interest in the foundation," he said.

Another feature of the Foundation Gala will be entertainment by popular Charlie Byrd. Byrd who has spent more time on the Salisbury Campus in recent years than any other entertainer will be featured at the foundation's most publicized social event of the year. He has performed four times in recent years.

The gala is a first-class social event which attracts, in addition to college staff, many prominent persons in Wicomico, Somerset, Worcester, Dorchester and Talbot counties.

The program includes a cocktail party to be held in a colorful, beautifully decorated setting with music, an elaborate dinner including shrimp, filet mignon, wine and all the trimmings and featuring dinner music.

Cherry Gering of Snow Hill, chairperson for the gala, says that members of the foundation have tickets available. They may be picked up at the Public Relations Office.

For more than a decade Orleans has consistently delivered hit after hit marked by memorable lyrics, beautiful harmonies, and well-fueled rhythms. From "You're Still the One" through "Dance With Me," "Love Takes Time," and more, they have developed a sound that is instantly recognizable.

Principal writer, guitarist, and lead vocalist, Larry Hoppen, and his bass playing brother, Lance, have led Orleans through six successful albums and a heavy North American touring schedule. Joined by a third brother, Lane, on keyboards and vocals, Eric Charles on drums, and Dennis Amero on guitar and vocals, the group has gathered a large and loyal following in concert halls and colleges. Several appearances on Mid-night Special, dozens of dates before audiences of 100,000 plus, as well as three top five hits, have only served to widen their appeal.

Livingston Taylor was born in Boston, raised in North Carolina and is now based in Cambridge, Mass. ## Students Give SSC Foundation \$11,500 Gift

SSC's Student Government Association presented a check for \$11,500, collected from student activity fees, to the SSC Foundation at the annual Foundation Gala held Saturday night on campus.

Senior John Moseman, president of the SGA made the surprise presentation to President Thomas Bellavance during the evening's program. The money is designated for an academic in-state tuition scholarship for a qualified student.

Moseman said that the SGA was "proud" to make the contribution. "We believe that we are the first student organization in the state to contribute student funds to a foundation," he declared. "It is a worthwhile cause and will benefit present and future students of SSC," he added.

A pleased President Bellavance called the gift a reassuring mark of student recognition of academic priorities and benevolence. "It is highly significant that our own students have taken this action to improve quality at Salisbury State. We are obviously very happy about this surprise and it is noteworthy that it is the first Foundation donation from students.

Dr. Bellavance said that more and more publicly funded colleges and universities are finding it necessary to rely on private support for programs which contribute to educational experiences of students but cannot be funded by the institutions themselves in the face of declining state support.

Criteria for the academic scholarship will be a minimum score of 1,000 for combined SAT's of high school candidates, a 3.0-point grade average and a candidate who demonstrates leadership in high school activities.

The first scholarship will be awarded for the 1982-83 college year and the selection will be made by a committee which includes faculty, staff and students.

The formal Gala resembled a night at Hollywood's Academy Awards. Cars pulled up at Ruth Powell Dining Hall and were whisked away by valet parkers. (Members of SSC's Sigma Alpha Epsilon Fraternity).

Guests entered the main dining area for the cocktail party amid music renditions of an organist (Elsworth Wheatley, a 1981 SSC graduate). The dining hall was lavishly decorated with flowers and each table was lighted with candles. The dinner featured filet mignon and was topped off with appropriate wine at each table.

## Dance Company will Present Spring Concert

The SSC Dance Company, under the direction of Denay Trykowski, will present its 1982 Spring Concert in Holloway Hall on May 9 at 2 p.m. and 8 p.m., and May 10 at 8 p.m. Tickets may be purchased at the door. General admission is \$1, with special discount for senior citizens and children under twelve.

The SSC Dance Company concert performances give student choreographers and performers opportunities to explore dance as an art form, a folk form and a form of entertainment. Featured on the program will be "Gals' Hoedown," an exhibition clog reconstructed by Karen Woodsum; "Dark Wood to White Rose," a duet depicting the progress of two individuals, choreographed by Donna Curry; and "Women from Glad," a funky piece with unusual costuming by Deborah Bowen.

Ending the first half of the concert will be a suite of three Armenian folk dances, presented by specialist Tom Bozigian of Los Angeles who served as guest consultant to the dance program during a three-day residency. Mr. Bozigian staged a "spinning" dance for performance by 10 women in the Dance Company.

Two additional Armenian folk dances have been staged by Denay Trykowski for performance in the concert.

Opening the second half of the concert will be a Bulgarian Ruchenitsa staged by Karen Woodsum. "Interplay," a contemporary work choreographed by Michele Masucci, focuses on the physical restraints that challenge the human spirit. "Shazam," a new dance by Deborah Lombardo, sends six space-age women on a jazzy adventure into a new frontier. Cynthia Groff and Kelly Layo have exploited confined movement in "Baggit," a dance bundled with surprises.

Completing the program is an old favorite by Deborah Lombardo, "Can Can" a depiction of barroom frolics.

## Garden Notes...

Why not plant perennials this year? Perennials are flowering garden plants which usually die down before winter while the roots remain alive underground to send up new shoots every spring. In the long run, planting perennials instead of annuals will save you time and money.

Many new perennials have been planted around campus this spring including 'basket-of-gold' alyssums, 'albo-marginata' hostas, red oriental poppies, black-eyed susans, and daylilies. Look for their colorful flowers in mid-summer every year.

Other perennials which may be right for your garden include daisies, chrysanthemums, phlox, lavender and iris. And if the year should come when you're too concerned with other matters to run out to the garden center and buy flowers, don't worry, your wise investment will pay off with beautiful flowers despite the neglect.

## Energy Policy at SSC

The policy determining air conditioning availability for the coming cooling season will be basically the same as last year it has been announced. Mark Wilkerson, energy coordinator says, "We must strictly adhere to this strategy in order to comply with the governor's guidelines as well as to insure our fiscal health as we contend with a 15% increase in electrical costs.

With this in mind, we have set a goal of cutting our electrical consumption by 15%. This is necessitated by the lack of proportionate increase in state support. While other institutions, public schools and private industry are living with severe cutbacks in materials, supplies and personnel, we hope to attack the problem from a different direction, he said. By eliminating energy waste, we may insure that the quality of our academic offerings remain unhindered toward the end of excellence in higher education. Therefore, if we will be willing to endure some physical discomfort, then we can avoid the real pain of severe fiscal limitations," he added.

Since February, SSC has used 6,000 fewer gallons of fuel oil this year than for the same period last year despite an increase of 70 heating degree days during February. The March electric bill reached a high for this period of \$41,000 despite an actual decrease in consumption.

Wilkerson urges all to avoid the complacency which has accompanied the current world energy glut. In order to benefit both at home and work—be energy conscious, he declared.

There are eight sessions of three hours each, covering operation of boilers including types and designs of boilers, fuels and their characteristics, combustion theory, practical combustion control, basic water chemistry and steam plant auxiliary systems.

## Garden Notes...

Spring at last! What a beautiful time of year! But, one must be careful not to focus so much attention on the colorful flowers that other potential problems go unnoticed. The problems I'm speaking of are leaf-eating caterpillars.

The two most harmful caterpillars on our campus are the Eastern Tent caterpillar and the Cankerworms (commonly referred to as an inch-worm). These critters are already out and munching on the rapidly growing young leaves.

The Eastern Tent caterpillar prefers flowering fruit trees such as Wild Cherry and Crabapple. To eliminate this pest, we simply examined all susceptible trees early in the spring (about the time the tulips started blooming), cut out any webbed "tents," burned, and disposed of these infested branches.

The Cankerworm prefers to feed on the beautiful Linden trees in front of Holloway Hall. They are feeding now, having just hatched last week. But one must look closely, as their tiny green bodies are barely visible at first glance.

Eliminating the Cankerworm is not as easy as clipping out a few branches. They tend to spread out rather than group up as the Tent caterpillars do. Insecticides such as Sevin and Orthene would kill the Cankerworm, but these products could also be harmful to other animals and insects, such as honey bees, which may be near the tree at spraying time. A relatively new product called Dipel will be tried on campus this year. It contains a bacteria which infects only caterpillars, therefore it is harmless to humans, animals, and all other insects.

If you have any questions about how effective this product proves to be, or if you notice any other infestations on campus, please call me on ext. 341.

Joan Maloof, Coordinator  
of Grounds

## Commuters Center to Open Soon

Because of the concern of commuting SSC students, the Office of Continuing Education will establish an information exchange center for commuting students soon.

The center will be in operation in time for those students who may wish to enroll in the 1982 summer session which begins with the Evening Program, Monday, May 24. The summer session (Summer Session I) day division will begin Monday morning, June 14, and Summer Session II will begin Monday morning, July 19.

It is apparent that many commuting students are concerned with the cost of driving to and from the campus. The college has and will continue to make every effort to meet the needs of its full and part-time student body.

Students who are interested in forming car pools should contact the Office of Continuing Education and give their names, addresses and telephone numbers, their type of vehicle, their daily class schedule and the particular summer session they will be attending.

For more details, contact Continuing Education, room 140-143 HH or call extension 321.

## Outdoor Club

The Outdoor Club is planning a back country camping trip May 7, 8 and 9 to the Shenandoah National Forest. This trip is open to all members of SSC student body and faculty. The presentation summarized Dr. Lade's work, begun as part of a sabbatical project, with computerized satellite imagery of landform and vegetational anomalies of the Eastern Shore. The papers of the symposium "Innovations in Archaeological Applications of Remote Sensing, Aerial Photography, and Ground-Based Photogrammetry" are being prepared for publication by Dr. Paul Hoag of Kansas.

## Energy Notes

Mark Wilkerson, energy coordinator requests cooperation and assistance from employees in Holloway Hall. He says, "Many areas of the college are making continued progress in terms of energy conservation. This winter in Holloway Hall we used 11.59 gallons of No. 2 fuel oil per heating degree day compared with 9.34 gallons last year. The total consumption for Holloway Hall alone was 45,000 gallons from October 1982 through March 1983. This is a 5,000 gallon increase over the previous year.

"Part of this increase can be attributed directly to the further deterioration of steam traps in the building as well as the inherent inefficiency of 50 year-old steam piping. These two problems more than likely meant that some of you were warmer than necessary.

"Please let me know if you have any additional insight as to why we failed to conserve energy in Holloway during this past winter. For instance, Mr. Jim Lackie offered the suggestion that we caulk around the unit heaters to prevent cold air infiltration. This is an excellent idea and an example of the kind of suggestions we need. Suggestions and energy related concerns may be directed to me in the Maintenance Office, ext. 341."

## Chorus, Choir Present Concert

The SSC Chorus and Chamber Choir will present a combined concert in Holloway Hall Auditorium on Sunday, May 3 at 4 p.m. Both choral groups will be under the direction of Dr. Ray H. Zeigler, associate professor of music. The program will feature a variety of choral pieces ranging from Vivaldi's *Gloria* to a medley of choreographed songs by George Gershwin. There is no admission charge.

## Motor Pool Regulations

A new policy is being instituted in the Motor Pool for all SSC employees who use state vans or automobiles. When the vehicles are returned to the parking area adjacent to the Maintenance Building, they should be parked in the numbered space that matches the number of the vehicle. The driver should drive into the space in the normal fashion and NOT back into the space. There has been some damage to the exhaust systems of several vehicles caused by parking the cars and vans with the rear toward the fence.

## Senior Recitals

Karin Pusey, soprano and Robert Thompson, baritone, will present a joint recital on May 5 at 8 p.m. in Caruthers Auditorium.

Karin, a communications arts major, will be accompanied by Dr. Jessie L. Fleming. Joining Karin and Dr. Fleming in the beautiful ensemble for voice, clarinet and piano, "Shepherd on the Rock" by Franz Schubert, will be Mary White, clarinetist.

Robert, a senior biology major, will be accompanied by Dr. Ray Zeigler. Both students of Norma Heyde, they will perform a varied program including songs and arias by Handel, Schumann, Bizet, Gounod, Faure, Leonard Bernstein, and duets from Mozart's opera *The Magic Flute* and George Gershwin's "Porgy and Bess."

## Skaters Nite Set

"A Family Skate Night" for all Salisbury State faculty, administration, and staff will be held from 7 - 10 p.m. on Sunday, May 9 at Skateland. Admission will be \$1.00 at the door, rentals extra. Plan to relax with your family and friends at a different kind of Mother's Day celebration at the first SSC family skate night! If you've been complaining that you don't have time to socialize with your colleagues, this is your opportunity. (Sponsored by Faculty Welfare Committee.)

## Voice Class IV to Present Recital

Dr. Gerri Rossi and Dr. John Knowles gave a workshop during the 2nd Annual Conference on Improving College Teaching, on Saturday, April 3 in Washington, DC.

Subjects included: Recognizing three main experience patterns that students possess—the visual, the auditory, and the kinetic. It also included: Awareness on the part of the instructor that he must have the flexibility and creativity to present and prepresent his conceptual information in those three experience patterns in order to aid the student to understand the concept and to facilitate the building of the student's experiences into the same conceptual framework. Also featured was practice in developing concrete examples in the areas of language, math, literature, graphics, and philosophy.

## Journal to Publish Prof's Paper

Bill Horne of the English Department has had a paper entitled "Curiosity and Ridicule in Samuel Butler's Satire on Science" accepted for publication. It will appear in *Restoration*, a journal published at the University of Tennessee.

## Energy Reminder

PLEASE, do not expect air conditioning unless there is a predicted high of at least 85 Deg. F with a minimum outside temperature of 80 Deg. F. If anyone observes a violation of this policy, please call Mark Wilkerson, energy coordinator (ext. 341) at once, and the problem will be resolved immediately. We cannot cater to the desires of any one individual or group for air conditioning. It is most critical for everyone to learn to adapt to this policy!

## DO YOU OWN SERIES E U.S. SAVINGS BONDS?

If you own Series E Savings Bonds, purchased between May 1, 1941 and April 1952, you should know that they are reaching final maturity exactly 40 years after date of issue. (For instance, a Bond purchased in May of 1943 will reach final maturity in May of 1983). As these Bonds will not earn interest after reaching maturity you should either cash them or, to extend tax deferral on earned E Bond interest, exchange them for current-income Series HH Bonds. Such exchanges may be made up to one year after final Series E Bond maturity.

## Houston-Bound

Ms. Cheryl Homer, a senior majoring in Liberal Studies/Political Science, has been awarded a \$4500. graduate assistantship at the University of Houston. She is enrolled in the Masters of Public Administration program in the Department of Political Science.

## Garden Notes...

Everything is growing rapidly now—including some things which we'd prefer to see remain their present size. I'm referring to the evergreen trees and shrubs on campus, and perhaps in your own garden, which insist on growing tall and "leggy" rather than compact and full.

The easiest time to control this problem is right now, when the spring growth is just beginning. If you look closely at a pine tree this week, you will notice a narrow shoot covered with soft light needles. This shoot is called a "candle." All the candles reach full size in just a few weeks and that is the end of that plant's growth for the season. If you want to restrict the plant's size, prune in spring when these candles are present. Simply snip each candle in half with your fingers or a pair of clippers. New buds will form behind the cut, and the following year the foliage will be much denser and more compact than if the candle had grown to full length.

## Smithsonian and UMES Offer Youth Ecology Program

This summer, children ages eight to 12 will have a unique opportunity to participate in the Smithsonian Institution's Summer Ecology Program. Co-sponsored by UMES and the Smithsonian, the program is an innovative environmental program that allows boys and girls to have fun while exploring the ecology of their community.

Through games, "hands on" activities and crafts, youngsters discover new things about their environment while learning basic ecological concepts. Throughout the five-day program, a staff of six environmental educators and interns design and lead creative activities appropriate for each age level and interest. Special themes are selected such as "Energy Strategies," "Food for Survival" or "Operation Space-ship." In addition, students examine the particular environmental concerns of their community: waste disposal, food sources, erosion, etc.

The youngsters become scientists themselves. They explore the estuary, hike through woods and marshes, don hip boots to sample fish and other small animals, and discuss their own impact on the Chesapeake Bay.

The Summer Ecology Program meets from 9 to 3, August 2 through 6. The fee is \$45 per student. Enrollment is limited to 35 on a first-come-first-served basis. For more information and registration materials, please contact John Groult at the UMES Upward Bound Program, 651-1309.

## Garden Notes...

The beautiful white and pink dogwood trees all over Salisbury have everyone's attention this week. Why not take this opportunity to learn a little more about them?

Most of the dogwood trees on campus are the white, wild form, known by the Latin name *Cornus Florida*. Pink dogwoods can only be obtained by grafting a shoot from another pink dogwood onto a white wild form, rootstock. Have you ever been surprised by seeing white and pink flowers on the same tree? This is usually caused by a shoot which grows from below the graft on a pink dogwood. Below the graft line any shoots would have white flowers since the rootstock is from a wild white form. This dual colored flowering is usually a mistake but occasionally nurseries will graft trees this way on purpose.

Nursery grown dogwoods are the most successful type for home gardens. However, if you cannot resist the urge to transplant one from a nearby woods, the following precautions will increase your chances for success. First of all, choose a small tree, not over three feet tall. Secondly, root-prune your selected tree by spading just beneath the tips of the outer branches at least a full season before moving. This causes the tree to form a more compact root system. Thirdly, wrap the trunk of the tree with heavy paper strips or commercially available tree wraps to prevent mechanical injury, sun scald, and borer damage to the trunk. The tree should then be pruned to compensate for the loss of roots caused by digging. Lastly, water the tree thoroughly during any dry spells for the first growing season in its new location.

The seminar, "Culture and Society in English, 1840-1918," will be directed by Perry Curtis and Roger Henkle, both of Brown, and will examine newer forms of social history which have raised important questions about the relationship of literary texts to social contexts.

## New Film on Bulgaria to be shown May 6

SSC will stage a U.S. premiere showing of a new Bulgarian film on Thursday, May 6, at 3:30 p.m. at World Cinema in Shoppers World.

The film is subtitled in English and free to the public, according to Dr. Robert Berry, associate professor of history, who was responsible for arrangements for the film.

The film will be shown by Eugene Kirilov, cultural attache of the Bulgarian Embassy, according to Dr. Berry. Sponsors are the History and Political Science Departments. "We also want to thank World Cinema for offering their facilities for the U.S. premiere," he said.

"The film is an historical epic set in the 13th century during the Second Bulgarian Empire, a time when Bulgaria was one of the most powerful states in southern Europe. The Boyana Master, from whom the film receives its title, was a Bulgarian Michelangelo. His name has been lost to history, but his work remains in the Boyana Church. Historically and artistically, the church at Boyana is one of the most important buildings in Bulgaria," he adds.

Following the showing of the film, Mr. Kirilov will present an evening program on Bulgarian culture. This second program will be on the campus. It will take place at 7:30 p.m. in Devilbiss Science Hall 149. Mr. Kirilov's topic will be: "The Development and Preservation of Bulgarian Traditions and Culture." This program, also free and open to the public, will be illustrated with films and slides. It is sponsored by the History Department and History/Political Science Club.
